

**IF YOU COULD HAVE
THE BEST SCHOOL
YOU CAN IMAGINE,
WHAT WOULD IT BE?**

At City Neighbors, we have taken a stand for schooling rooted in the vision of the child as powerful, creative, capable, and deserving of the deepest respect.

Can you imagine **A PLACE WHERE...**

student learning is creative, responsive, and engaging...

the arts are an integral piece to all learning,

students learn actively in
a workshop model,

children and teachers ask essential questions like,
"IS PEACE POSSIBLE?"

"DOES HISTORY MATTER?"
and they have the time to do long term in-depth
explorations to find answers together,

deep and strong relationships are valued
and are given time to grow,

standardized tests
do not drive the
work, and

children learn in
carefully designed
and beautifully
created physical
spaces.
