

JUSTIN EAMES | *DIRECTOR OF TECHNOLOGY, CITY NEIGHBORS FOUNDATION*

Justin has taught in Baltimore City for the past twelve years. Beginning his career in elementary education, he soon realized that he had a talent and passion for educational technology and he spent the next several years teaching computer technology in local middle and high schools. Justin has been an advocate for the power that comes with pairing developmentally appropriate technology with classroom instruction and has been involved with several local groups that share this vision. Justin serves on the board of the local non-profit Code in the Schools, which advocates for the inclusion of computer programming into all levels of K-12 instruction, and was an inaugural fellow in the Digital Harbor Foundation's EdTech Link program. Justin holds Bachelor's Degree from The College of William and Mary in Philosophy and a Professional Master of Arts in Teaching from Johns Hopkins University.
